

# THE TECH

VOL. XXXI. NO. 101

BOSTON, MASS., FRIDAY, FEBRUARY 16, 1912

PRICE TWO CENTS

## MR. STONEMETZ WILL TALK BEFORE CIVILS

Meeting Takes Place This Afternoon—Important Announcements to Be Made.

Mr. Harry M. Stonemetz, a member of the old established law firm of J. W. Bowen & Company, will speak this afternoon in 11 Engineering B, at 4.05 o'clock, before the Civil Engineering Society, on the "Laws of Business and the Attitude of the Public Toward the Public Service Corporations." Mr. Stonemetz is eminently well fitted to speak on such a subject for he has had much experience and is a well-known writer on many matters relative to business and law.

He has been for many years a tireless student of financial affairs and has made a close study of business relations and the methods of telephone corporations, and will doubtless be able to give much to the men who attend of a very valuable nature.

The society feels very much gratified at having such a man as Mr. Stonemetz for its meeting, and it is hoped that a large majority of the members will be present. At this meeting there will also be made several announcements in regard to future plans, including a dinner and the annual banquet, as well as other announcements of a general nature.

## A. A. MERRILL TO SPEAK.

Will Discuss Aviation From All Points of View.

Tonight, at 8 o'clock, Mr. A. A. Merrill will speak at 39 Boylston street on Aviation. The lecture has been arranged by the Mechanical Engineering Society, and it is said that it will be one of the most interesting that they have arranged this year. The society extends an invitation to all men to come, because the subject is one of general interest and will be illustrated by stereopticon views. As a result of the research work that Mr. Merrill has done it is expected that he will present some original ideas relative to aviation. Anyone who is interested enough to come is assured a good time.

## WRESTLING MATCH.

Saturday night the wrestling team will meet the strong bunch of mat artists from the Boston Y. M. C. U. The Tech team has been practicing daily in the Gym and may be counted on to spring some surprises on the Union men.

Treat, who was the only man on the team to show up well at East Weymouth, is showing even better form than before and promises to give Dr. W. F. Trovan, the star man of the Y. M. C. U. team, a hard push to win his bout. Captain Smythe-Martin has yet to be actually defeated, while Doble and Crowell, the promising Freshmen, can take care of anybody in their class.

The Sophomore basketball team is showing some speed.

The Freshmen are showing the proper spirit in track. A few meets would help out the Sophomore team.

The Arena is a busy place these days. The hockey team has a hard time getting a chance to practice.

## MGR. THAYER CALLS FOR SHOW MEN MONDAY

Principals and Chorus Candidates Both to Report in Union to Meet Coach.

At 4 o'clock, Monday afternoon, there will be a meeting of the candidates for both the principals and chorus of Tech Show, 1912, in the Union, when Stage Manager Thayer will outline the work and take the names of all the men who intend to try for places on the cast of "Castles in Spain."

About seventy-five of those men who report on Monday will make the cast, fifty in the chorus and about twenty principals. There will necessarily be many Freshmen among this number because of the fact that many of the Show men of last year have

## STARS OF "FRENZIED FRENCH."

left the Institute. There are but eight of the principals from "Frenzied French" who will be out for this production, and this means that there is room for about a dozen new men right here.

There will be a large number of chorus, both feminine and masculine, in "Castles in Spain," and for this reason alone it will be a fine chance for a lot of new men to get some good experience which will be of great value in future years when they try for the leading parts.

Although not absolutely obliged to (Continued on Page 2, Col. 2.)

## MUSICAL CLUBS !!

The attention of all Musical Clubs' men is called to the missatement of the date for the Wellesley Hills concert which was made in Wednesday's issue.

The men will leave Trinity Place Station at 6.24 P. M., Saturday, February 17th.

## SENIORS TO HOLD IMPORTANT MEETING

An Announcement of Interest to Every 1912 Man Will Be Made.

To-day at 1.30 o'clock a very important meeting of the Senior Class will take place in Huntington Hall. There will be a discussion of the plans for Class Day and the officers for that day. The Vice-President of the class has a very important proposition to bring before the Seniors which will be of great interest to every 1912 man.

This is to be a new idea which the Seniors propose to inaugurate and to apply not only to this class but to all the other classes after it. The proposition in view will really have more to do with the class as Alumni than while here at the Institute. D. S. Benbow, the Vice-President, refused to give out any information on this matter as he said it was to be announced for the first time at the meeting tomorrow, therefore it is up to every Senior to show up and acquaint himself with the facts.

The ballots for the elections for the members of the Class Day committee will be given out some time next week.

## SOPHS ! ATTENTION !!

Owing to an error in printing of the Technique Electoral Ballots, they will have to be rejected. Corrected copies will be distributed in a few days, and no votes will be counted if handed in on the old ballots.

## SOLDIERS' HOP TONIGHT.

No Flowers to Be Permitted On Floor — Begins Promptly.

This evening sees the Battalion Hop in all its glory. Promptly at 7.45 the officers will present their ladies to the matrons, and as soon as that duty is attended to the grand march, the big feature of the Hop, will begin, led by Major Taft, after whom will come the captains and other officers.

The last opportunity to purchase tickets will be offered this noon when a man will be in the Union. The committee decided at its last meeting that no flowers will be permitted on the floor. In regard to the tickets now outstanding, the committee wishes that all men having them would report the sales and return unsold tickets to the Adjutant, S. Breck Jr.

That Cosmopolitan Club dance will surely be a classy affair.

Overheard on the way to drill: "I wonder where all the bell-boys are coming from."

Freshman Mathematics welcomes its latest acquaintances—Maxie Mum and Minnie Mum.

Things are pretty busy at the Gym these days, with the wrestling, sprinting, hurdling, high jumping, shotputting and rowing machine practice going on all at the same time.

## LIEUTENANT-GOVERNOR PRAISES ROOSEVELT

Luce Speaks On "Convention"—He Defends and Encourages Radicalism.

Lieutenant-Governor Luce, speaking of government yesterday noon in the Union at the Christian Association meeting, said that it has two functions, Ethical and Business. As he had come into the building he had passed a fire-engine and he mentioned that as an evidence of government business co-operation, which began when our ancestors combined centuries ago and organized an army for protection. In the last fifty years there has been a large increase in governmental business that requires a correspondingly larger interest and responsibility in public affairs for (Continued on Page 2.)

## SENIOR PORTFOLIO.

Committee Asks That History Blanks Be Returned at Once.

Last week the Senior Portfolio Committee followed the usual custom of distributing history blanks to be filled out by the members of the class and returned to the committee as soon as possible with the information asked for. They expressly requested that these blanks be left at the Cage on or before the fifteenth of February. Thus far only about fifty have come in, and the committee will be seriously handicapped in the work unless very many more men take enough interest in the matter to report at once.

The men who have not already done so are also requested to have their pictures taken at the earliest opportunity, as only four more days remain before the time expires. The committee desire to make this Portfolio the best ever issued, but in order to accomplish this they must have the co-operation of the members of the class, so it is hoped that the men will attend to these matters at once.

## CALENDAR.

In Charge of S. H. Taylor, 1914.

Friday, February 16.  
1.00—News Board Meeting, THE TECH—Upper Office.

1.30—1912 Class Meeting—Huntington Hall.

2.00—E. E. Society Trip—L Street Plant.

4.05—C. E. Meeting—11 Eng. B.  
4.15—Glee Club Rehearsal—Union.

4.15—Mandolin Club Rehearsal—26 Lowell.

5.00—Basketball Practice—Gym.

EDITOR—R. F. Barratt, 1914.  
Associates—H. Rogers, 1915.

THE TECH takes pleasure in announcing the election of Leroy Wilder Chandler, 1912, as General Manager, to fill the position made vacant by the resignation of E. W. Tarr. Alden H. Waitt, 1914, has been elected Managing Editor.

Fire in Pierce. Cleofan had to move.

## A SPEECH.

Acceptation of old customs is necessary to the peace of society, but following rules obviously antiquated is lavish. To young men in particular did Mr. Luce address this axiom. Students of the Institute will soon go out into the world, and leave upon it an impress great or small, according to the man. Men just out of college are prone to assume themselves bigger than they are, yet we hope that reports we have heard are true; that is, that this tendency is less among Tech men than those of other colleges. It is one of the advantages we possess to offset the disadvantages that are common.

Young men are the ones to whom the world must look for advances, social and political. The question of discontinuation of bad customs is also left to them. They should, then, have individuality to accomplish the necessary forward movement, yet they need not be freaks. While we are students is the time to develop the needed character, and if Tech men are still to be leaders it is time now to become ready to take their parts in the world's affairs.

## AND A MORAL.

Just a reminder suggested by the above. One of the first things for a man to learn is to be a man. It is evident that there are some men in the Institute who are to be taught this, for many disagreeable things occur which are out of place here. The petty thievery, of which we have made mention, the reading of another's TECH, refusal to believe in our own teams to the extent of attending a game,—all these are things that should not make part of the education of men later to take important places in life. Brace up, fellows, and do your share.

## HOCKEY TEAM PLAYS MASS. AGGIES TONIGHT

M. A. C. and Tech Won From Amherst by Same Score—Close Game Expected.

The hockey team will make another journey to Amherst Friday night, this time to play the fast M. A. C. team, who defeated Amherst Wednesday by a score of 3 to 0, and as the Tech seven only beat them by a score of 4 to 0, they anticipate having to hustle in order to win.

On account of the International skating races being held at the Arena this week, the team's practice hours have been broken into, but they are playing together well and should clean up the Aggies. The out-door rink is rather to their disadvantage as they are used to playing indoors.

The teams will line up as follows:

Tech.	M. A. C.
Storke, r. w.	r. w. Sanctuary
Yereance, Fletcher, l. w.	l. w. Peekham
Sloan, c.	c. Hutchinson
Hurlbutt, r.	r. Jones
Stucklen, McLeod, c. p.	c. p. Walker
Eichorn, Whittlesey, p. p.	p. McDonald
Ranney, g.	g. Ackerman

## CALL FOR CANDIDATES.

(Continued from Page 1, Col. 2.)  
be in attendance at the first meeting, Coach Sanger is making a special effort to get into Boston on that occasion so that he may get an early grasp on the men who will later come under him for special work in the theatrical line. His talk will be full of interest and contain points of great value for those men who are serious in their efforts at making the Show.

## FRESHMAN TRACK MEET.

First Year Runners to Oppose Medford High Team.

The Freshman track team will meet the runners from Medford High in the Gym Saturday afternoon at 2 o'clock. The 1915 men started their schedule with a victory over Lowell High and are a fairly strong combination, especially in the short distances, shot-put and high jump. They lack fast men in the long runs, but have some material which may turn out good in the future.

Little is known about the performances of the Medford team in the past, but the Freshmen do not expect a walkover. When seen yesterday afternoon Frank Kanaly said: "I know nothing of the Medford team, and although I hope to win, I do not place too much confidence in 1915's chances of victory."

The following will be the order of events: 35-yard dash, mile run, 40-yard hurdles, 300-yard run, shot-put, 600-yard run, high jump, relay race, 1000 yards (4 men, 3 laps each). The above is the regular program for Boston Interscholastic meets, and as Medford is in the league they did not wish to use the regular Tech order of events.

## LIEUT.-GOV. SPEAKS.

(Continued from Page 1, Col. 4.)  
citizens, and particularly for those members of the Commonwealth who have had such an education that they can mold public opinion intelligently. Public opinion must be influenced in some way and it is one of the duties of "Good Citizenship" to do what one can to better it.

Mr. Luce then talked several minutes about "Convention," after defining it as doing the "right" thing, or conforming to what society has adopted as proper, and saying that it is necessary as a time and energy saver, he pictured one or two situations that might occur if we did not pretend to follow accepted rules of every day life. "Suppose," he said, "that you were to argue every morning whether

PRESIDENT MACLAURIN  
ON STUDENT EARNINGS

Thinks Experience at First More Important Than Earnings.

President MacLaurin in an interview gives his opinion about the much talked of "Earning Power of Students at Graduation." "I do not feel that it is a fair test of any education," he said, "to find out how much a man earns when he quits college." Dr. MacLaurin thinks that the statement of President Hibdon of Princeton has been given too much importance. "What he was driving at," continued Dr. MacLaurin, "is true, that a man must develop himself in his line before he can command a large salary. In spite of the fact that he may not be worth more than six dollars a week, it cannot be denied that a few years later he may be very valuable.

"At Technology we feel that a graduate must not be carried away with his earning power. We advise the students to value experience above salary at the outset. The theory of the college is to broaden the view and train the mind. No one claims that Latin and Greek have a value in the commercial market. Technology gives its students an earning power, and in this respect is different from many other institutions."

LIEUT-GOV. SPEAKS

(Continued from Page 2) or not you would shave half your face or all of it; whether or not to have eggs first and cereal next." Turning from trivial examples to more serious convention, he cited the strict Puritanical rules that obtained here seventy-five years ago, when the small boy sat in a high-backed horse-chair to read "Pilgrim's Progress" and got punished if he looked out the window.

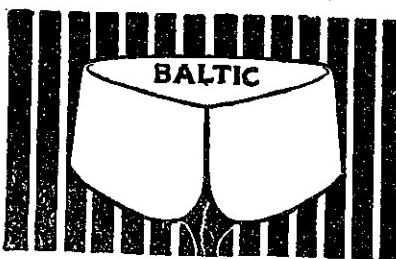

"Standards are always changing, and it is now our duty to pass upon, and where possible, improve the ones left us." People used to settle their lawsuits by a fight, now they have to try arbitration, and if a man was not much of a fighter himself, he hired champions or clergy; all of which was all right according to the barbaric theory that might makes right. But such days have not entirely passed, and an instance of their survival is being enacted before the country's eyes in Lawrence, where throwing bars through windows and chunks of ice through car windows is not precisely civilized behavior.

There are various standards, among them that of the Ten Commandments adopted by the people in the Orient many hundred years ago to satisfy human necessity, and to which religious sanction has been given.

The Lieutenant-Governor did not express any preference for a particular form of government, but said "What is best administered is best." It is ordinarily not possible for any one man to modify the "mores," that is the customs and beliefs of a people, but that we had had such a man in Roosevelt. "Roosevelt," he said, "succeeded in bringing such influence to bear on standards of his people that the business world's ethics were transformed, and bad practices based on 'the custom of the trade' have gone forever from American life.

"It is always to the youth of a country that we must look for progress, but nevertheless," he said, "he must ask us to comply with customs for the peace of the world, and still have the courage to disregard those that have become acquainted, even if that means hostility to society. When society sees that he is right it will be grateful to him for enduring the taunts that seem to go with radicalism. Charles Sumner said that when Harvey announced his theory of the circulation of the blood no one over forty years old accepted it."

While a young man often goes to inexcusable extremes occasional revolt is necessary, and he thinks that a good citizen should have the bravery to be the leader on those occasions,
